

GRADUATION

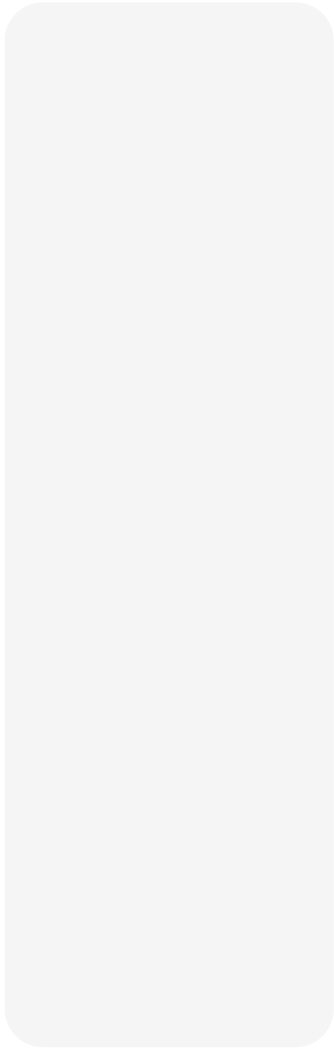

GUtech Celebrates Graduation of More Than 460 Graduates

The German University of Technology in Oman (GUtech) celebrates the graduation of its twelfth batch of students from

Respected GUTech Alumni,
this day is a day of joy and a day of great achievements as we gather here in GUTech's Amphitheatre to mark the culmination of years of hard work, determination, and unyielding commitment. Each one of you embarked on a unique journey on this campus, a journey that is a significant milestone in your life.

This day is your day, and it is not just a testament to your academic accomplishments but also to your resilience, your ambition, your ability to overcome obstacles, and the dedication to your dreams. You are

SPEECH about Ceremony

Deputy rector of administration and finance.

There is no doubt that you are today concluding a phase that you have passed with determination and patience, and at the same time you are beginning a new phase, the future, full of endless possibilities. You, the graduates of the German University, are uniquely equipped to shape and build the future with the competence and knowledge you have acquired during your studies.

The directives of His Majesty Sultan Haitham bin Tariq Al Said, have mapped out the future of the Sultanate of Oman. Zq'e Ycā' l'] k] 'log' p] d.k' Y' priority in the coming national plans. Therefore, the German University hastened during the past year to establish a number of programs that deal with l'] k] 'log' p] d.k& A' Y\ \ dāf' to its academic programmes ā' [qZ] jk] [m] āq' Yf\ ' Y] lā [ād

intelligence, the university offered specialized courses for graduates of engineering and] gō' q'lg' p'f\ ' ke Y] l' kōhā' f' k' to the problems of the oil and gas sector in cooperation with SLB.

A' l'] ' p] d' g^' j] f] oYZd'] f-ergy, we are pleased to announce today on this occa- kā' f' l'] ' d' n' f' [' ' g^' l'] ' b] k] l' professional master's program in the Middle East in the p] d' g^' q\ jg_] f'] f] j_ q] [g- nomics and technology.

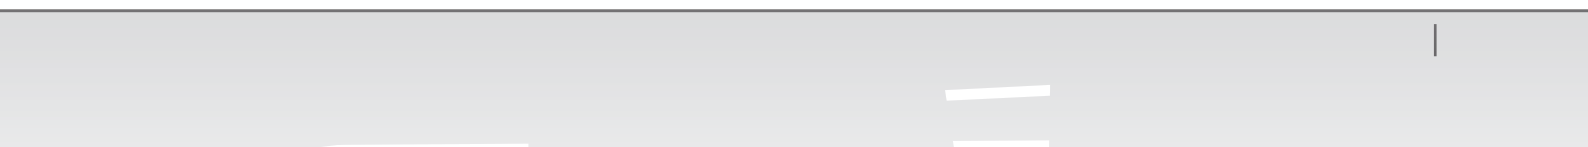

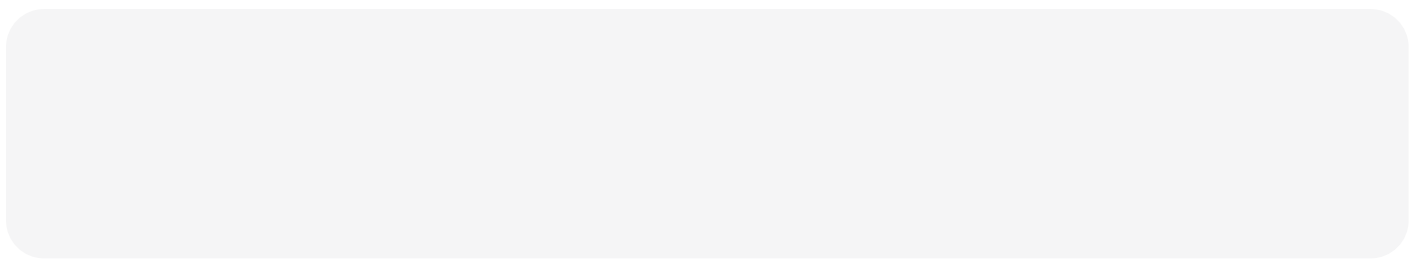

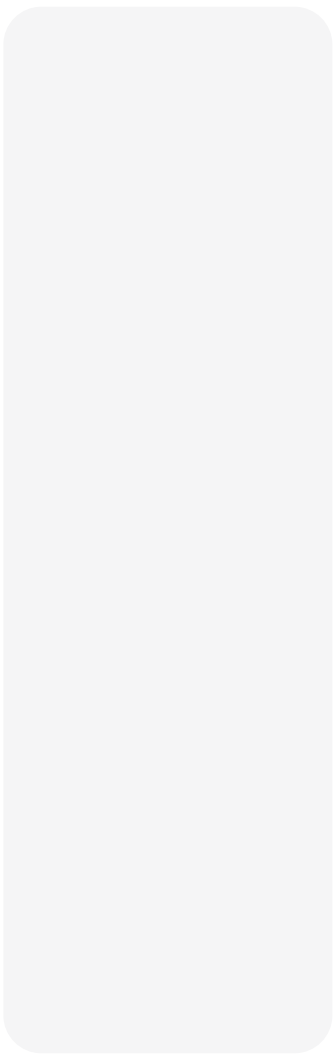

It is incumbent upon us - in l' ā' k' [ā' f' lā [' _Yl'] jā' _%lg' j] e] e Z] j' l' Yl' k [ā' f' lā [' progress does not achieve its desired goals except with a value-based and ethical responsibility that it is framed by, and through which we work to harness this progress in the service of the general human

good, so that the goal is achieved in the welfare of man and the building of the earth.

However, what we see today of the tragic conditions that the region around us is going through, and what our people and brothers are facing in the occupied Palestinian territories from a brutal aggression, and from Y' BY_ jYf l' nā' d' lā' f' g^' mē Yf ' values, principles, and covenants, and what we see of a hateful silence for the killing of children and women by countries that claimed guardianship over human rights, raises questions and fundamental problems about human values and the duality of standards in an era in which the pace of sci-] f' lā [' h] jg_] k' ā' f' l'] ' o' g] d' is accelerating.

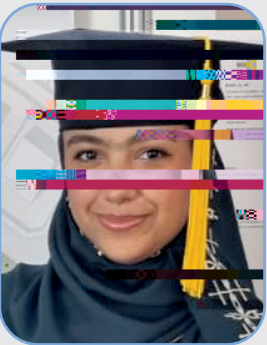

When you graduate from this stage to the unknown future, build your country and your world with a future of innovation, and do so with

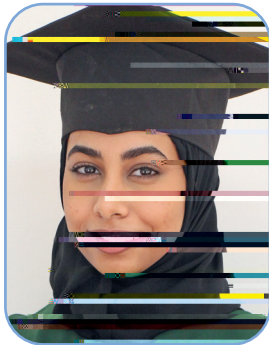

"My degree from GUTech has been a key that unlocked countless career opportunities, making it a pivotal chapter in my educational journey. The faculty's unwavering commitment to excellence [YfIq] f j d \ my learning experience. I am grateful for the invaluable impact this university has had on my life."
